

# Colorado River

## Scenic Beauty

The Colorado River and river canyon provide scenic recreational opportunities and beauty to the Moab area. It is wonderful to float down the river and see the beauty of it.

Highway 128 is an extremely scenic route with wonderful places to view the river.

## RECREATION

I love to fish and boat on the river. I am glad they don't put any restrictions on the river. The corridor has become a major spot for camping. Close to town and very affordable. BLM had to improve chemical toilets, and designated camp spots because of over-use.

Beautiful scenery just downstream from an old uranium processing plant, where radioactive tailings would be washed into the river in a flood.
